Subject: on David's draft

On health effects and contradiction with TCEQ & Harris County: my first thought is for EPA to reach out to CDC for a consult, rather than at the outset for EPA try to confirm or deny TCEQ & Harris County.

Would you let me know what you think – depending on what you think I'd like to consult with Ryan before we reach out to CDC.

issues.

Chemicals stored in a trailer not a tank.

Health affects directly contradict what is said by TCEQ and Harris County. They say that impacts are similar to a burning camp fire.
